Data Analysis	Advanced Excel · SQL · Python (Pandas, Matplotlib) · Jupyter Notebook
Financial Analytics	Financial Modelling · Segment Analysis · Budgeting · Forecasting
CRM & Operations	Odoo CRM · Process Documentation · KPI Design · Workflow Automation
AI & Web	AI Tools · GitHub Pages · Supabase · Netlify · HTML / CSS / JS
Soft Skills	Executive Communication · Training & Facilitation · Project Management

PROFESSIONAL EXPERIENCE

Process Lead / Project Manager KKON Technologies Limited (KKONTech) · Lagos, Nigeria	2023 – Present
- Lead business intelligence, operational reporting, and process documentation across the ISP's Lagos operations. - Implemented and configured Odoo CRM to streamline customer lifecycle management — from lead to installation to support resolution. - Built real-time Power BI dashboards tracking installation pipelines, support tickets, outage resolutions, and field team KPIs, reducing reporting lag from days to minutes. - Defined and enforced SLA frameworks and escalation workflows (SD Fiber–ISM pipeline) that improved first-response times significantly. - Deployed AI-powered web tools and internal trackers hosted on GitHub Pages, Supabase, and Netlify for cross-team visibility. - Collaborated with C-suite to translate operational data into strategic decisions across 6 departments.	

Lead Data Trainer & Analytics Consultant

DatechX Solutions · Lagos, Nigeria

2022 – Present

- Designed and delivered Excel and Power BI training programmes to professionals and SMEs across Nigeria.
- Developed AnalystHub — a React/Vite learning management platform for data skills training.
- Delivered hands-on client dashboards and BI consulting engagements across finance, logistics, and hospitality.
- Trained 100+ professionals in advanced Excel, Power BI DAX, data visualisation, and business analytics.

Data Analyst

Freelance / Independent Consulting · Lagos, Nigeria

2020 – 2022

- Built a real-time crypto trading performance dashboard using Power BI and live API feeds.
- Conducted deep-dive financial segment analysis for Guaranty Trust Bank's 2022 results using Python (Jupyter Notebook).
- Developed automotive and FMCG sales analytics dashboards with advanced Excel pivot tables and DAX measures.
- Built a call centre KPI tracker reporting resolution rates, CSAT scores, and agent productivity for a BPO client.
- Created customer sales reports and CRM-integrated dashboards for retail and e-commerce SMEs.
